DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 9/14/07 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,801,008 B1 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 13-18 and 20-25 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 13-18 and 20-25 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. In claim 13, "reducing the output of the maximum peak force to an output of a nominal peak force from the actuator when the power utilized by the actuator exceeds an average power level over a predetermined period of time, the nominal peak force associated with a maximum power that the actuator can utilize in continuous steady-state operation." In claim 20, "determining a stored force feedback effect to contribute to a force output by an actuator on the manipulandum, the stored force feedback effect comprising a force feedback effect type and a magnitude: receiving a second signal comprising a calculated force feedback effect; and determining a combined force feedback effect to contribute to a force output by an actuator on the manipulandum, the combined force feedback effect comprising the stored force feedback effect and the calculated force feedback effect." The closest prior art Ruoff, Jr. (4,278,920) teach generating a desired control program for the manipulator the outputs of the

render the above underlined limitations obvious.

load cell and of the position transducers for the manipulator drive servos are used to generate command signals for the drive servos which urge motion of the clamp to reduce the externally imposed forces; however, singularly or in combination with other prior art, fail to anticipate or

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mansour M. Said whose telephone number is 571-272-7679. The examiner can normally be reached on Monday through Thursday from 8:30-6:00 P.M. The examiner can also be reached on alternate Friday from 8:30 a.m. to 5:00 p.m. EST. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard A. Hjerpe whose telephone number is 571-272-7681.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C. 20231

or faxed to: 571-273-8300 (for Technology Center 2600 only)

Application/Control Number: 10/788,538

Art Unit: 2629

Hand-delivered responses should be brought to the Customer Service Window at the Randolph Building, 401, Dulany Street, Alexandria, VA 22314.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
